#### Report-

One student had stated that due to some financial constraints in his family, he has taken up a job in his 6<sup>th</sup> semester. Hence he is unable to attend the online classes which is clashing with his working hours. He was advised by me not to discontinue his studies in his final semester and to look into the study material which the teachers are unloading in the college LMS. Later, he acknowledged that he is catching up with his studies at home and will appear in the forthcoming exams.

Another student and his family were affected by covid 19, due to which his father expired. Being unsure as how to cope up with this loss, the student was advised to take care of his health and to be in touch with his classmates to keep up with the topics that are being covered. Now his health has improved and he is attending the classes regularly.

The students in general have no complaints regarding online teaching apart from the occasional technical difficulties.

Department : Botany

Name of the Mentor : Dr. Rajyasri Ghosh

Sl. No	Name of Mentee	Year / Sem	Issue Raised	Issue resolved
1.	Student 1	Sem 2	Since Sem 1, the student was having online classes due to pandemic situation. She stated the problem of understanding the online practical classes since she has not seen the college laboratories and has never been to the college.	This is a real problem among the students especially for them who have never been to the college after admission. The student was encouraged and inspired so that she doesnot lose interest in the subject. The matter was raised to HoD and other teachers. All the faculty members are trying hard to make the practical classes more demonstrative and explicit for the students.
2.	Student 2- left the course in sem 1			
3.	Student 3- left the course in sem 1			
4.	Student 4	UG Sem IV	He was irregular in online classes as he faced network issues.	Told him to take a good net connection so that he could join the classes regularly. The student now regularly attend the classes.
5.	Student 5	UGSem IV	Faced problems with payment of hostel fees due to financial problem in the family.	Told her to discuss the matter with the Superintendent of Lady Jane Dundas Hostel. Madam informed her about the concession made by the college in hostel fees
6.	Student 6	UGSem VI	Unable to cope up with the newly introduced DSEA paper Research Methodology.	Her problem was discussed with the other teachers of the department and special attention has been given to the difficulties she used to face with the subject. The matter was

				raised to UGBOS members as many students similarly faced problem with the specific paper. The UGBOS conducted a workshop for the teachers on this newly introduced paper and thus the students are highly benefitted,
7.	Student 7	UGSem VI	The student along with some of her batchmates was not satisfied with the marks obtained in semester 5.	The matter was conveyed to the HoD and other teachers of the Department. Had a thorough discussion with her and the student was made aware of the mistakes she had made in the last semester examination. The student was encouraged to do better in the forthcoming examination.
8.	Student 8	UG Sem VI	The student and his family members suffered from Covid 19 infection and could not attend some classes.	The class recordings were sent to him and he was also given mental support to combat the difficult situation.
9.	Student 9	PG Sem II	The student reported the problem in understanding the practical classes. However there was no problem with theory classes.	Had a discussion with the other faculty members. All the teachers tried hard to make the practical classes more explicit.
10.	Student 10	PG Sem II	Since hands on practical classes could not be held, the student could not understand the practical procedures clearly	Had a discussion with the other faculty members. All the teachers tried hard to make the practical classes more explicit.

1.	Student A	Sem 2	Satisfied with online classes but desperately wants to attend the college in physical. The isolation is disturbing him mentally.	Meditation and counselling helped him to relieve some stress.
2.	Student B	Sem 4	Very much concerned about her studies, couldn't concentrate due to present situation. Father is a doctor so family is always concerned about his health.	Counselling helped her to relax and concentrate on studies.
3.	Student C	Sem 6	Worried and stressed about exams and PG admissions.	Counselling helped her to relax and concentrate on studies.
4.	Student D	Sem 6	Father will retire in 2 years so wants to settle down and become independent before that. Very stressed about preparations for bank exams.	Counselling helped her to relieve some stress and she gained confidence about her decision of not pursuing M.Sc instead trying for other Govt. jobs.

5.	Student E	Sem 6	Not very good with the subject and lacks practical exposure due to pandemic. Thinking about future makes him really tensed.	Suggested him to prepare for other competitive exams for jobs.

**General Issues/Suggestions:**

Study materials are uploaded for Environmental Studies but it would be better if scheduled classes are held

This suggestion was conveyed to the Vice-Principal and online classes were arranged in the next week

Study Materials for Environmental Studies in Bengali

This suggestion was conveyed to the teachers and arrangement for that was done

It would be better if they could access study materials of Semester I also in CMS at present

As the time periods of odd semesters and even semesters are different it is not feasible

Students share their concern about study in online mode. They feel that teachers are trying their best but still there is a gap in learning in this mode; also they miss friends and other enjoyments of college life

No one reported any suffering from COVID in family

## Progress Report on Mentoring

### March to December 2020

The mentoring started off in explaining differences between • coaching and mentoring; • Importance of trust • What is trust and building trust.

- The mentoring programmes in the peculiar challenging times focused on
- drawing learning lessons on converting the challenges into opportunities, building story telling sessions on sustainability and we students.
- Further the mentoring sessions essentially evolved on how the students can consolidate the gains and move towards newer opportunities in trying periods.
- Myself as a mentor I also needed reorientation to ensure I deliver the best to my mentees in difficult times and indeed in the most challenging times.
  
- Informed the students about the availability and location of curriculum materials and teaching resources which include • information about students prior to teaching • timetable and grade allocation • Academic Calendar, • regulations and rules of Course • how to access facilities and equipment • availability of classroom resources.

## Progress Report

### January to June 2021

- Mentoring was on essential takeoff from course, bridging gaps with market further opportunities and ways to proceed. • Students showed keen interest to learn what are opportunities ways ahead.
- In the digital platform job opportunities will be online so story telling will be online platform and students need to gear up.

Discussed on writing CV skills and resume. See the attachment for details.

Mentor Mentee Progress Report (2020-2021)

Department of Zoology

Name of the mentor: **SWAGATA CHATTOPADHYAY**

SL. No	Name of mentee	Year/ Sem	Issue Raised	Issue Resolved
1	Sushmi Sen	Sem 6	Confused about future prospects of the subject.	Guidance for putting utmost and diligent effort in graduation. Attempting entrance exams of other universities encouraged. Provided her with study materials and information about competitive exams (for PG courses) in other states and boosted her morale and confidence.
2	Ananya Chaudhury	Sem 4	Language issue as sometimes bilingual teaching is difficult to follow in some classes.	Doubt clearing from teachers encouraged and suggested.
3	Sarthak Jena	Sem 4	Difficulty in following multidisciplinary topics in Zoology at the same time in different classes. Studying during corona second wave and attending classes was not possible for the student as he and his entire family was affected with covid and had to shift.	Teaching multitasking and efficient time management skill by preparing a checklist of different study topics each day as smart work should be the motto instead of hard work. Provided him with all the study materials (for the classes which he

Swagata Chattopadhyay

				missed) and helped him with extra classes.
4	Prerona Halder	Sem 2	Confused about future and wants guidance about a prospective career.	Shared information regarding prospective careers with fast growth and high demand eg. Machine Learning, AI and data science and analytics. Also encouraged her to prepare for IBPS, WBCS and SSC examinations.
5	Malisha Datta	Sem 2	Studying for competitive exams (NEET) and B.Sc. together is very hectic and pressurising for the student. She is really passionate about a career in medicine however, graduation course has to be pursued as a backup. How to juggle both of them effectively and manage the time effectively.	Focussing on both NEET and UG is difficult, so focus should be on B.SC till the sem 2 exams are over and then she needs to work hard and prepare for NEET (scheduled later in the year tentatively).
